

so whats the deal about the terms of the wiki copyrights??

Duno, but here are two licence tags you can use for images in the mean time:

Licence

This image is licensed under the Creative Commons Attribution ShareAlike License v.3.0:
<http://creativecommons.org/licenses/by-sa/3.0/>

{{Cc-by-sa-3.0}}

License

Permission is granted to copy, distribute and/or modify this document under the terms of the **GNU Free Documentation License**, Version 1.2 or any later version published by the Free Software Foundation; with no Invariant Sections, no Front-Cover Texts, and no Back-Cover Texts.

{{GFDL-no-disclaimers}}

If you want another licence then borrow it from Wikipedia's copyright tags page, make a template and post it here.

We should probably use GFDL seeing as that is the licence on the bottom left.
