

Upgrading the package lists

To get started, run "ipkg update" and "ipkg upgrade".

Installing the mDNSResponder package

Install the mDNSResponder package:

```
~ # ipkg install mdnsresponder
```

```
Downloading http://downloads.openwrt.org/whiterussian/packages/libhowl\_1.0.0-1\_mipsel.ipk ...
Connecting to downloads.openwrt.org[195.56.146.238]:80

Unpacking mdnsresponder...Done.
Configuring mdnsresponder...Done.
```

Configuring and running mDNSResponder

The configuration file is at /jffs/etc/mDNSResponder.conf

Start the mDNSResponder:

```
LD_LIBRARY_PATH=/jffs/usr/lib mDNSResponder -f /jffs/etc/mDNSResponder.conf
```
