

Talk:Kismet_Server/Drone

The package http://www.xs4all.nl/~rop/openwrt/kismet-drone_2004.10.r1_mipsel.ipk is rather old, shouldn't we use the openwrt package?

Sure!, <http://www.kismetwireless.net/code/kismet-2006-04-R1-wrt54.tar.gz> is the latest precompiled available that uses drone protocol 9 to use with recent servers.
