

Talk:PPTP_Tunneling

Is the title name OK? I don't think Point-to-Point PPTP Tunneling with two DD-WRT is proper, unless you can do it with one?--[whiteboy](#) 03:52, 2 Oct 2006 (CEST)

It might simply be indicating that you're doing it with two DD-WRT's instead of one DD-WRT and a telephone line or through the internet or something.

IMO Bridging should be a more proper name. --[brazio](#) 00:24, 1 January 2009 (CET)
